WORK EXPERIENCE

Venture Capital Analyst (Part-Time)

MAY 2025 – JUNE 2026

University Growth Fund

- Developed detailed financial models and projections for Jump.ai; contributed to the investment memo ahead of the company's \$80 million Series B funding round in February 2026, led by Insight Partners.
- Conducted due diligence across market, regulatory, and operational dimensions to assess investment risk and compliance.
- Built financial models projecting 3 – 5 years of revenue and expense growth trajectories for SaaS startups, focusing on KPIs including churn rate, CAC, and LTV
- Built a valuation model using DCF, precedent transactions, and comparable company analysis
- Assessed exit scenarios using precedent transactions and strategic comps to evaluate market positioning.
- Led onboarding for a new analyst, ensuring consistency in due diligence standards and documentation processes.

Externship

FEBRUARY 2025 – APRIL 2025

ARC70 Capital

- Built revenue, expense, and cash flow models to derive (NOI) and discounted cash flow (DCF).
- Conducted market analysis and structured rent data
- Performed sensitivity analysis and prepared an investment summary report.

Operations & Customer Service Representative

APRIL 2025 – AUGUST 2025

UCSD Transportation Services

- Managed high-volume campus operations during peak period, coordinating logistics for 1,000+ daily commuters
- Resolved payment system issues and assisted students with transportation access.
- Maintained operational accuracy across concurrent responsibilities while managing dual roles during the same period

LEADERSHIP & INVOLVEMENTS

PERMIAS

AUGUST 2023 – SEPTEMBER 2024

Treasurer

- Managed organizational treasury, prepared financial reports, and maintained accurate budget records to ensure fiscal accountability across events and operations.

3D Design & Printing

JANUARY 2025 – PRESENT

Independent Creator

- Designed and published original 3D models on MakerWorld, accumulating 150+ downloads across published designs.
- Developed models using Fusion 360, applying technical design and engineering principles to produce print-ready files.
